

WL HIRE

Since the last version of our catalogue was published, we have made a number of changes to our hire stock. In particular we no longer have any CCT Silhouettes available, and are currently removing other older equipment, including Strand Cantata profiles, from hire: ex-rental units are now available for sale at reasonable prices!

We have added over £1million-worth of new equipment over the last year. In some cases we have added to existing stocks, purchasing additional Robert Juliat followspots and ETC Source Four profiles and Pars. We have also been investing in new equipment, including Wybron CXI colour-mixing scrollers and Avo ART touring dimmers.

We have continued to invest in new equipment that satisfies the various regulations under which we all have to work. An example is the White Light LOLER Ladders, side lighting ladders that are fully adjustable - and fully rated & certificated.

We are constantly adding new equipment to our stock: if there's something you need and you cannot find it either in the main catalogue or in the update below then please ask the hire department. You can reach them on the new number, 020 8254 4820, or email hire@whitelight.ltd.uk.

WL SALES

Through its thirty-year history, White Light has become known as the leading entertainment lighting hire company. But we are more than just a hire company: over £3million-worth of sales in the last year alone shows that we are a great place to buy from, too!

If you haven't met White Light Sales before, we'd like to take this opportunity to introduce ourselves. Our aim? To offer you top quality products at highly competitive prices - backed up by the standard of impartial advice, friendly service and on-going support that people have come to expect from White Light.

White Light is a main dealer or distributor for the following:

- Robert Juliat
- Strand Lighting
- ETC
- Zero 88
- CCT
- MDG
- Look Solutions
- Rainbow
- Tomcat
- DHA Lighting
- Le Maitre
- Smoke Factory
- Lee Filters
- Rosco
- High End Systems
- GAM
- RAT
- Zarges
- Jem
- Lite Structures
- Wybron
- Anytronics
- Artistic License
- City Theatrical
- Rope Assemblies
- Martin Professional
- Optikinetics
- Powerdrive
- Doughy
- Lamps (various)

We also supply our own products - including the VSFX Optical Effect range and the WL Tubular Ripple - and the range of architectural lighting products from Enliten, including the award-winning HQI Source Four conversion kit, the acclaimed Callisto exterior profile spotlight and the 575W MSR Enliten Exhibition Par, which continues to prove highly popular on car shows around the world.

Whatever you need to buy, we are more than just 'cardboard box shifters'; if you need us to, we can prepare any lanterns you purchase from us so that they are ready to go - all you have to do is hang them in position and plug them in, saving you valuable time and effort. To take a look at the companies who have chosen us to help them, visit the White Light web site at www.whitelight.ltd.uk.

And if you're ready to buy, why not try us? Just pick up the phone and call us on our new number, 020 8254 4840, or email us at sales@whitelight.ltd.uk. With our buying power we can usually match any price. Give us a call - we look forward to helping you.

WL PROJECTS

As the company has grown and the industry has changed, White Light North has increasingly been involved in projects, at home and abroad, that are not simple "hires" or "sales".

Recent Projects include:

Hard Rock Café - Manchester

The supply and installation of lighting and control for the stage area.

Hard Rock Café - London - Merchandising store

Full architectural lighting control system operating Martin Wash lights, Cold cathode and low voltage systems. A fully integrated (one touch) system.

BT Cellnet - Ealing Film Studios

Design supply and installation for a development environment using conventional and intelligent lighting hardware, controlled by Show Magic Total Show Control software for which White Light North are a major distributor.

ShowMagic

White Light North has been appointed as the UK distributorship of this vital piece of software, because there is nothing in the market place to compare. For any project or installation, ShowMagic has now become the standard control system. Full sound mixing and playback, DMX and RS232 control, m-peg2/3 playback, all to 1/25th of a second queuing. For individually designed 'corporate' software, and specials, please phone the projects team.

Other White Light Group Companies

With the exception of White Light North and Co✓Ordination the rest of the White Light Group have moved into new premises in SW19. Housed under one roof they are able to work together to provide the complete package of services required.

Along with this move the services and equipment offered by these companies have expanded, none more so than The Moving Light Company who have purchased a number of new VL2202™ and VL2402™ luminaires from Vari-lite Inc.
