

WHITE LIGHT VSFX OPTICAL EFFECTS

The VSFX effects range projects realistic moving images which can be either standard effects from the range below, from a custom disc made from your own artwork or from our extensive image library. Further details on www.whitelight.ltd.uk/vsfx

The standard VSFX Projection System consists of;

- 1 a flat field projector
- 2 a VSFX drive unit
- 3 a glass effect disc
- 4 an objective lens

A separate data sheet is available.

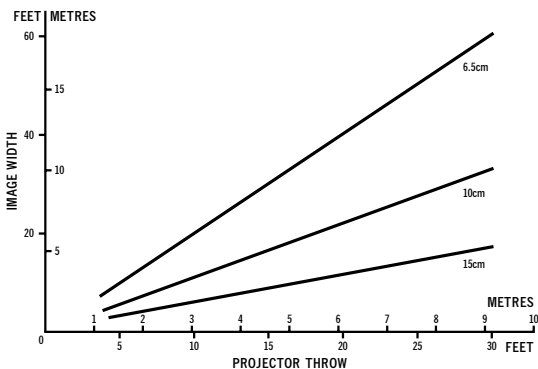

Strand Toccata projector 2.5kW (without lamp)	864.29
CCT Starlette projector 2.5kW (without lamp)	845.00
VSFX Drive & Housing	720.00
Effects Disc - Fleecy, Storm, Thunder Cloud	200.00
- Rain, Snow	200.00
- Smoke	225.00
- Flame, Running Water	250.00

See back of dividers in this catalogue for examples of VSFX images.

WaveFX

A variable speed wave effect unit which uses the standard range of projectors and lenses

Single Slide Carrier	125.00
Objective Lens - 6.5cm, 10cm	225.00
- 15cm	250.00
Adjustable Mask	25.00
Beam Divertor Mirror	50.00
VSFX Flight Case	75.00
Dust Cover Set	17.50

TUBULAR RIPPLE

A water ripple effect for use on a cyclorama.

500.00

Requires 2 x 189mm linear lamp;
 for 1250W use 2 x P2/10 lamp
 for 2000W use 2 x K4 lamp
 for 2500W use 2 x P2/12 lamp
 (Note: 50% duty cycle only at 2500W)

Prices valid from September 1st 1999. Prices are in pounds Sterling & exclude VAT. Prices subject to change, please ring for confirmation.

Ice Fountain	1	1.5	35-45	None	Cold	Low

Dist = Minimum safe working distance for people or scenery in metres

Height = Minimum safe working height for people or scenery in metres

Duration = in seconds (or instantaneous)

Noise = an indication of the noise produced

Fallout = an indication of the nature of any particles produced

Smoke = an indication of the smoke produced

PYROTECHNICS DISCLAIMER

The information contained in this publication is intended to be for guidance only and, whilst it is believed that the contents of the publication are true and accurate in all respects, the information provided should not be relied upon.

Whilst all Le Maitre products are manufactured to the highest standards under strictly licensed conditions and every effort is made to ensure quality, uniformity and consistency, please note that pyrotechnic devices can react in different and unexpected ways depending on environmental and atmospheric conditions prevailing at the time of ignition. The data contained in this publication has been obtained through a series of rigorous tests carried out in controlled scientific conditions similar to the ideal conditions for the ignition of the devices. However, since we cannot control the conditions prevailing at the actual time of ignition, nor have we any control over the actions of the operator, we cannot accept liability for any loss, damage expense or costs incurred or arising from the use or storage of these products. Whilst rigid compliance with the guidelines set out in this publication should ensure the successful ignition of the devices, we make no representations herein nor give any guarantees or warranties and we cannot accept any liability for any loss, damage, expenses or costs incurred in respect of the use of any of our products whether caused by negligence or otherwise.

WARNING: Pyrotechnic devices can be dangerous and the utmost care must be taken when using them. In particular it is unlawful for any person under the age of 18 to operate the ignition of any pyrotechnic device.

We cannot give any guarantees or warranties and cannot accept any liability for any loss, damage, expenses or costs incurred in respect of the use of any of these products whether caused by negligence or otherwise.

All personal collections of pyrotechnic software must be accompanied with a valid form of Identification (i.e. passport, driving licence or utility bill) stating date of birth and current address.

FLAMEBAR

Flamebar is a non-toxic, non-irritant fire retardant solution for application to virtually all flammable materials.

It is essential that the correct solution is used.

Type S3	Natural Fibre, Cotton, Canvas, Hessian, Wool, Silk, Paper, Felt.
Type N5	Acrylics & Blends, Wood, Foam, Wallcoverings
Type PE6	Polyester, Nylon & Synthetics, Foam, Wigs.
Type S1WA2	Paper, Costumes, Gauzes, Lightweight Cardboard.

Available in 1litre hand held spray, or in 5 litre bottles.

Read instructions carefully before use.

Type	Per 1litre spray	Per 5 litre
S3	7.45	30.65
N5	7.45	30.65
PE6	7.75	31.80
S1WA2	6.50	23.35

FLAMECHECK

Flamecheck is a highly effective flame retardant solution which is specified by many TV companies and theatres.

The solution is very versatile, and will treat virtually any surface that will absorb the liquid. It is colourless, odourless and non corrosive and should be sprayed onto the area to be treated. Only a light application is required and thus one litre will cover 30m (100') x 36m (120').

Treatment lasts for the useful life of the material treated. It is not affected by dry cleaning but can be impaired by flooding or regular washing. Where washing is envisaged, or where it is necessary to determine the effectiveness of the treatment, a harmless fluorescent additive can be included in the solution.

per 1litre spray	12.00
per 5 litre	50.00
